# Navigate the Maze

We are here to help you navigate your way to a successful IT & marketing strategy.

## Get Started - Web Design

Start with your idea, give us your vision and we'll build it. With as little as one page you can start your next online project and grow your site as your business increases. Our customers include everyone from small family businesses to multi-nationals and government agencies. We have something to suit you.

We're unique - Built the way you want, at a price you'll love!

## Add-Ons - Build & Grow

Add-ons anytime you want them! Need an online store, maybe a blog or a custom real estate or car solution we can add them at anytime.

All with competitive fees that won't break the bank! As your business grows we grow with you. Start small and get big knowing you will only pay for what you need.

## Add A Topping - Extras

Your websites running but it needs something extra. How about business class email @yourdomain.com or maybe add some video streaming or audio to your website.

Support's included too! Get 1 hour a month of free time for changes or tweaks to your system. We also look after all the security for you. Full 24x7x365 monitoring and response.

## Advertise & Promote

Traditional web companies design a site then pass it to you. We believe that our service shouldn't stop there. We can help you advertise your new website on our own networks or other mediums. We'll continue tweaking, improving and advertising your website until it reaches the top.

\*Some services extra fee

## Take It Offline - Print & Media

Digital presence not enough?  
We can design and print everything from a simple business card to a full corporate identity.  
Whether you need high quality paper products or signs, billboards and much more, we can help!  
Get the benefit of convergence by ordering a full package of online services, advertising and printed media at an amazing price!

## BUSINESS CLASS WEB DESIGN, DEVELOPMENT & MOBILE

### to web design

We've re-imagined web design. No more designers who "build & run". We design and build engaging and successful websites for companies, individuals and government agencies.

Our service doesn't stop with the initial design, we'll continue to work, support & build your online brand together.

With our experience gained from more than 200 projects and our belief that good design starts with understanding your business and needs we'll work to ensure our design exceeds expectations.

### to web development

Our services aren't limited to an eye catching, effective web design. We have skilled developers who can work to produce custom web software and apps to take your business to the next level.

### to mobile

Need a mobile website for your established web presence? No problem. Whether you prefer an iOS app, Android or maybe HTML5, we can help with the decision and then the development.

### to domains, hosting & email

Our service doesn't end with design we provide a full domain management service, hosting on our private servers and Google Apps or Microsoft Exchange email.
